MEDIA RELEASE

12 January 2017

**SU Request for Governor-General to accept a Declaration & Proclamation 26 January**

In a letter forwarded to the Governor-general Gillard, Michael Anderson, urged the Governor-general to be cognisant of Australia's illegal status as a Nation State.

Gillard, Michael Anderson, Convenor of the Sovereign Union, last surviving member of the founding four of the Aboriginal Embassy and Head of State of the Euahlayi Peoples Republic said from Dubbo, NSW, today:

“The fraud that us being perpetrated against First Nations Peoples continues unabated and it is now time for all the colonial authorities to understand and accept their limitations.

They must now stop continually imposing their illegitimate notions upon us. These impositions continue to try and steal our patrimony which we have, and never will give up.

It is time to call a spade a true spade, such is the case in this correspondence to the Governor-general, Sir Peter Cosgrove.”

LETTER to GOVERNOR-GENERAL. Sir Peter Cosgrove:

6 January 2017

Your Excellency,

**Re: Your acceptance of a delegation from the Sovereign Union on 26 or 27 January 2017  
at Government House, Canberra**

There will be a march of Aboriginal people and their supporters, which is being organised by myself, as the Convenor of the Sovereign Union. This march will take place on 26 January 2017 commencing at the Aboriginal Embassy at 10am. The march ends at the gates of Government House, Yarralumla, where I will read a Proclamation together with a Declaration from the Sovereign Union.

The purpose for the delegation to meet with you as the Governor-General is to present to you these documents so that you can provide these documents to your Ministers of State.

It is important for you to understand that as a distinct and unique race of Peoples, who have come from the oldest continuing culture on earth, the most ancient culture of all, and that we are tired of the national government's continued approach of setting dictatorial policies and strategies that enslave us to a system that has been imposed on us.

The constant lies and deceit that the members of our race are citizens of Australia is a fraud and this fraud is constantly being bandied around so as to convince our people and the public that it is true.

No British monarch has ever made any of our race a denizen or denizens. The fact that our Peoples were Wards of the State and that they could be exempt from the *Aboriginal Protection Act*, if they gave up their Aboriginality and assimilate as an Australian.

We have never been members of a 'childlike race'. The problem for our Old People of the past has been that they did not understand the true nature of the English language. Consequently, things have been agreed to by non-representatives of the chosen elite amongst our Peoples, which has created significant restraints together with mental and spiritual harm to the whole group and this policy continues unabated.

The lies and deceit must end. The constitutional recognition ambition to celebrate the success of the 1967 referendum is indeed an act of war resulting in genocide through absolute and total assimilation. Too many of our people fear the worst if we do not abide by what the establishment demands, as they experienced constantly since colonisation, the fear of reprisals through the colonial practice of instilling terror into the hearts and minds of the people.

As the Governor-General sitting in Government House in Yarralumla you do not see the damage that is being done to our Peoples and our communities. Your ignorance of this damage is an indictment on your failure to ensure that the Australian governments govern correctly for peace and good order. But we understand that this only applies to the invader society and not to us as the First Nations.

The total disrespect and disregard for our Peoples across this continent is a shameless blight upon governments in this country. The continued bypassing of international norms and *jus cogens* represents a failed state, constitutionally. The fact that Australia does not have a law against genocide commands the definition of a failed state, and in this regard the Sovereign Union will continue to make representations to the UN about Australia's tyrannical rule over the First Nations Peoples in Australia by ruthless forces and disregard for civil and human rights as are guaranteed under international law. All of which I might add are now part of Australia common law by virtue of Australia's ratification of the said laws and incorporating them into Australian legislation.

I conclude by making the following two points:

1. The proposed constitutional referendum is an imposition of the worst kind that has ever been perpetrated against our Peoples. To play the psychology game of winning the hearts and minds of Australia's public by way of creating a guilt complex is a cowardice act.

It is totally wrong for you as the Governor-General to permit this falsehood and fraud to occur, without any funding being made available to us as Peoples to conduct a public campaign in order for us to argue the Nay factor.

I might add that there are some very significant matters that have to be considered, that is, this current government are completely ignoring and by their defiance of this need are carrying on a dictatorship equivalent to the Third Reich. I do not think that you as Governor-General would want this as a legacy of your time in office.

2. Your current Ministers of State understand full well that there are significant language differences throughout the First Nations in Australia. This diversity of language is being completely ignored by the government. Our Peoples are *not* fully informed of what is happening or what this constitutional discussion is all about in terms of what is in it for them. Moreover, it is disturbing to say the least that the Commonwealth government, which you preside over, is fully cognisant of this fact and yet ignore the need to address the language differences by way of proper informative interpretive discussions. Just to remind you as the Governor-General one First Nation and its Peoples cannot speak for another. These are our diplomatic protocols that continue to be observed to this day by our respective Nations.

The government's selected elite of Marcia Langton, Pat Dodson, Lowitja O'Donoghue, Noel Pearson, Gularrwuy Yunupingu, Warren Mundine and others is a crime against our people and a betrayal of trust. The Commonwealth government and the Ministers of State are fully informed of this fraudulent fact. To use people who suffer from the Stockholm syndrome is indeed a great insult to common sense while ignoring facts.

Unless you are convinced that the majority of the Aboriginal population throughout Australia in all locations, be they urban, rural or remote, are fully informed that they will not be deceived by a hidden agenda of total assimilation and mass destruction and will maintain their right to be self-determining with the right to their own national identity, then it will be your hand that will make it possible for the second greatest fraud to occur in this country against First Nations Peoples if you assent on behalf of HRH Elizabeth II to permit any legislation that leads to a referendum against the will of the majority of Aboriginal people.

On behalf of the silent majority, I implore you to search your conscience and make judgements based on truth, honesty, but overall in the interest of the true 'sovereigns of the soil', who at this point in time are completely impoverished with little hope of defending themselves against tyrannical impositions.

Sincerely,

Ghillar
